SDN BHD, Melaka, Malaysia
Port of loading : Mundra Port, India
Port of discharge : Port Kelang, Malaysia
Commodity : Filtration System fabricated
metal product

Congratulations team

Ceekay Shipping

Port of loading : Nhava Sheva, India
Port of discharge : Sharjah, UAE
Port of Transhipment : Jebel Ali, UAE
Commodity : Water Treatment
Dimension : 9.88x 3.75 x 5.20 Cms
Gross Weight : 32 Tons
No of Units : 1*40 flat rack
Mode of Transport : Sea, Containerized
Carrier : CEEKAY LINE

Challenges

- Dims - CEEKAY has successfully executed an unusual OOG with around 3 times of container height (cargo height 5.2 mtrs) as normal OOG from Nhava Sheva to Sharjah.
- Terminal - Advance approvals for handling from terminals involved i.e. POL, POD & Transhipment were secured prior confirmation of booking.
- Road permit - Because of the cargo height, it took 8 days to reach Nhava Sheva Port. Cargo manufactured in Pune but it was routed via Nasik because of height restrictions enroute.
- Port gate entry / Out - Normally all ports gate have width / height restriction which we have checked prior movement of the cargo.

Another BREAK BULK shipment Handled by Ceekay Shipping

CEEKAY has successfully executed a BREAK BULK shipment of Liebherr Crane – Telescopic Boom section measuring 21.33 mtrs long x 3.26 mtrs wide x 4.88 mtrs high weighing 48 Mts basis ON-BOARD operation on vessel GH Zephyr V. 002 from Mundra to Jebel Ali.

Agreed terms for shipment was Break bulk loading/discharge at POL/POD & direct delivery (DD) on Consignee's trailer at destination i.e. Jebel Ali.

We faced huge challenges as this was pure BB cargo & loading on container vessel was an extremely difficult task. We had to put a lot of efforts convincing all parties involved starting from Forwarder, Shipper, POL Terminal, POD Terminal, Vessel Operator, Stevedores etc.

The shipment was extremely challenging & adventurous, despite of advance approvals prior movement of cargo @ origin there was some or the other problems at every stage until it was delivered to the Consignee on trailer at destination.

8 empty 40'FR Flat rack containers were placed on-board GH Zephyr side by side in order create a bed for the cargo, then the cargo was placed separately on the bed of 8x40'FR containers. A saddle was created using wooden blocks, beams & metal frames to stabilize the cargo for safe sea passage. Stevedoring team present on-board then had to perform placing of saddle, placing of cargo on saddle, lashing & securing of both saddle & cargo of 8x40'FR containers in presence of a Marine Surveyor & Master of the Ship.

Upon green signal from Master & Surveyor, the vessel sailed with said cargo & reached its destination. Consignee was already intimated for making necessary arrangements for direct delivery, upon arrival it was informed that the trailer arranged by Consignee was not capable for handling / transporting said package. There was a huge uproar, as vessel has limited time of operation & discharge needs to be completed first so that they can start loading operation. Fortunately Consignee managed to arrange an appropriate transport within few hours & the cargo was safely discharged & delivered on Consignee's truck.

It was a teamed effort, kudos to CEEKAY team for successful execution of such unusual BB cargo basis containers.

Congratulations

Parekh Marine Services Pvt. Ltd.

- MV Porthos came to unload 30 pcs of Windmill tower on 22nd June 2019 at Deendayal Port, Kandla a/c GE India Pvt. Ltd.
- Total towers unloaded was 30 Nos, 1654.230 MT & 13298.595 CBM and sailed on 23rd June 2019.
- PMSPL acted as agent M/S Lynux Shipping Ltd.
- Stevedoring was done by Seabridge Stevedores Pvt Ltd. in 21 hours till now vessels used to always take more than 2 days and we did in less than 24 hours.

Congratulations team BLG Parekh

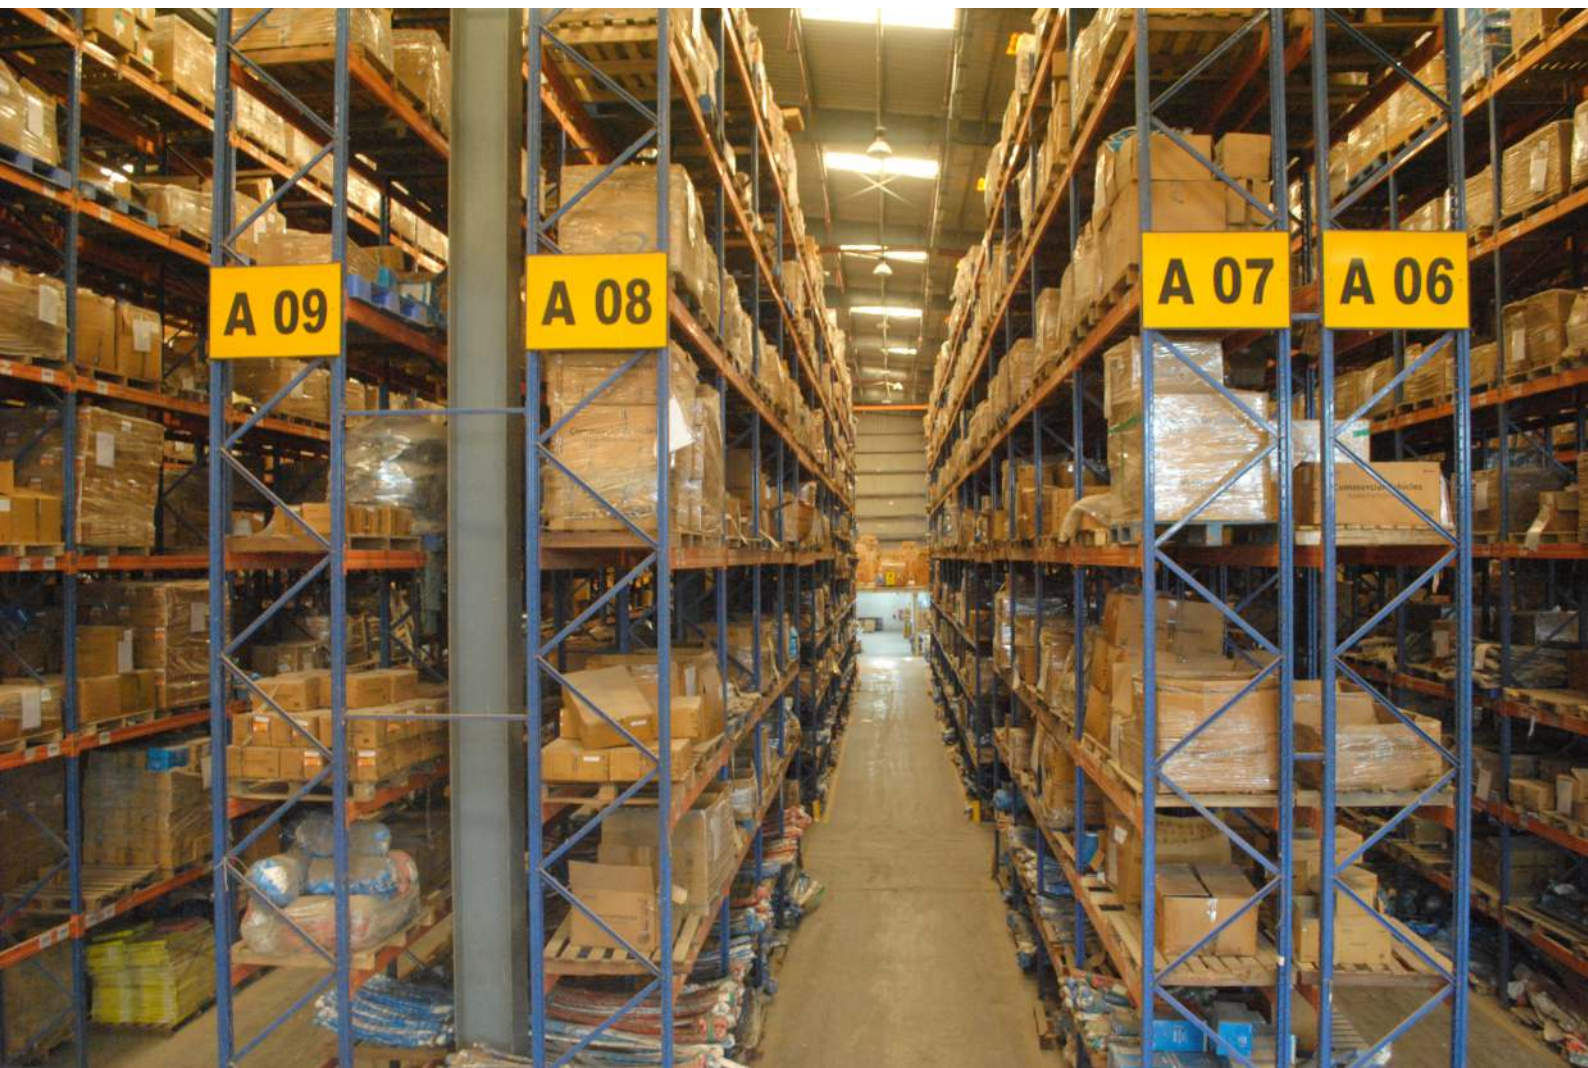

“BLG Parekh Logistics Pvt Ltd recently won one of the most prestigious contracts from Daimler India Commercial vehicles, a manufacturer of commercial vehicles, based out of Chennai. Total contract value stands approximately Rs. 25 crs for a period of 3 years and services include CKD and Part Level Packaging for their Global supply chain. India is slowly becoming a hub for Daimler’s global supply chain and this activity will increase both in scale and complexity in the coming years.

BLG Logistics won this contract against very stiff competition and beat major players. The entire operations is based out of Chennai and total team size will be in the range of 250-300 people. BLGP is confident of making this a world class operation and enter into additional areas of Daimler’s supply chain in the coming months. This also gives opportunity to BLGP to expand its customer base in Chennai’s booming automotive industry”.

Team received appreciation from the Vice President-Procurement

In our Part Level Packaging operation for Bajaj Auto, Aurangabad, we set the new historic high by packaging material for 20136 vehicles in one month. The previous high was 16000 vehicles. The success is all the more notable because the team achieved this performance against the toughest conditions. Our storage systems, Processes, Plant layout and Infrastructure was not matured to generate output beyond 15000-18000 vehicles. However Bajaj had given us the challenge that we need to somehow demonstrate as there were major escalations from their export team. Team decided to accept the challenge and did multiple changes on ground in record time and with the help of additional manpower and third shift, started working on day’s target and slowly and steadily ensured that the month’s numbers are delivered. Team also produced and delivered 829 CKD lots against the previous high of 789 lots, Team received appreciation from the Vice President-Procurement. In Spare Parts operation of Bajaj Auto, Aurangabad, the team for the month of June recorded production of 3.86 lac order-lines against previous high of 3.76 lac order-lines. This is also a new benchmark with minimal overtime and no extra resources.

NEW WINGS OF SEABIRD LOGISOLUTIONS

We feel proud to complete one successful year with great satisfaction in PAREKH GROUP. There is an old saying in warehousing that states, "If there is available space, someone will eventually fill it," and we proved it right by constructing a New Warehouse of area 1,00,000 sqft in Palwal. Additionally Expansion is done in South with one of our client, work has been started in Madurai with area 60,000 sqft and Hyderabad with area 50,000 sqft

Environment day celebration

Every year World Environment day is celebrated on 5th June to spread awareness, to encourage people to take corrective measures and to protect the environment. Environment plays an important role for healthy living. The Current theme of World Environment day is Air Pollution. This theme is chosen because the Air quality in the world is getting worsen year by year. We can't stop breathing and hence we need to do something to improve the quality of air that we breathe.

Let's actively participate and start making small changes in our daily routine which will help in improving the environment for future.

Trees also helps in reducing Air Pollution but only planting trees is not solution, we should take care of them like our own child and ensure they are growing.

**ENVIRONMENT
DAY
CELEBRATION**

World Yoga Day Celebration

International Yoga Day is celebrated every year on 21 June to raise awareness worldwide about the benefits of Yoga in daily life. Yoga brings balance between body, soul and mind. It helps us to understand the purpose of life and how to survive in the changing environment.

The theme of 5th International Yoga Day 2019 is "Climate Action". Climate Action theme focuses on the way how yoga can help us to solve the problem of climate change and also it bring a lot more benefits into the lives of people. It is necessary to work towards climate change. The sense of respect for mother earth overcomes regular yoga practitioners that will help people to act in a certain way at home and working environment to work and build better future.

Health Check-up Camp

Happy and healthy employees can play an important part in a company's success.

A healthy staff is always capable of delivering better result, **The employee health checkup** helps you to identify the health issues before they become serious and affect the employee's performance. Hence, an employee health checkup designed considering your specific industry can be the first important step for both - the employer and employees.

Navy hires vessel to shift pregnant woman for op

DC CORRESPONDENT
KOCHI, MAY 25

In a medical emergency operation, the Southern Naval Command on Friday pressed into service a civil hired vessel to evacuate a pregnant lady from Androth in Lakshadweep to a Kavaratti hospital to undergo caesarian section.

"The Director of Medical Sciences, Indira Gandhi Hospital, Androth, in Lakshadweep & Minicoy (L&M) islands contacted the Naval Base, *INS Dweep prakshak*, with a request for undertaking medical evacuation of a 23 year old pregnant female patient from Androth to Kavaratti Island. Due to complications the woman was required to undergo caesarean surgery which could not be undertaken at Androth due to lack of facilities," said a Navy

release.

"As the Island Helicopter (Pawan Hans) was non-operational, the movement of patient could not be undertaken by Air. Naval Officer In Charge (L&M). *INS Dweep prakshak* and Naval Detachment, Androth coordinated with Southern Naval Command (SNC) and civil administration for undertaking the medical evacuation. *MV Triton Liberty*, a civil hired vessel under SNC which was at Kavaratti, was directed, post can-

cellation of its ongoing Naval operational task, to proceed to Androth for evacuating the patient," said the release.

The patient along with medical staff and escorts were embarked on board *MV Triton Liberty* at 9 pm on May 24 and disembarked at Kavaratti at 4 am on May 25.

The patient underwent surgery at 6 am and delivered a baby girl. *MPV Triton Liberty* is a vessel hired by the Indian Navy for logistics support of L&M islands.

Use Your Imagination To Find Success

Visualize what you want.
See it, Feel it, Believe in it.

Your mind is a mental workshop.
You can build anything in it.
Make your mental blueprint,
And begin to build.

The beginning is in your imagination;
First think, then organize your thoughts into plans
Then transform your thoughts into reality by taking
some positive action.

Use your imagination to perceive your reality,
Even when it is not fully materialized.

You must first see it clearly in your mind
Before you can do it.

First visualize and then actualize your way
To success.

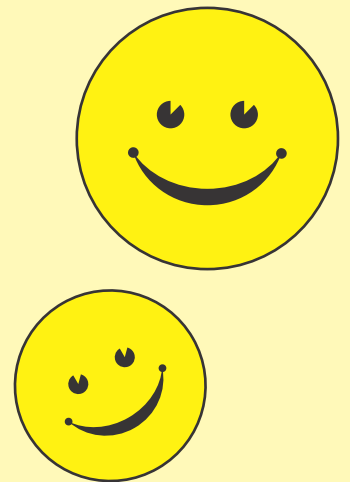

You really can live your dreams.
All you need to do is try.

What makes me Smile

A thought, that tomorrow will be a new start, makes me smile,
A Dream, that keeps me anxious makes me smile,
A Feeling, that my loved ones are loving me more everyday makes me smile,
A Hope, I'll make it through with all dignity and grace, makes me smile,
A Promise, that I've made to myself to become a better me makes me smile,
A Need, that I've to be strong no matter what runs over my mind, makes me smile,
A Want, to see everyone around me happy and smiling, makes me smile,
A Desire, to be someone who no one thought I could be makes me smile,
A Fact, some people are praying and wishing for my well being makes me smile,
A Compliment, a day coming from a Close friend or a distant stranger makes me smile,
A Reason, I'm grateful for My Family and Friends who are my support-systems makes me smile,
A Reality, My mirror loves me smiling, makes me smile even wider

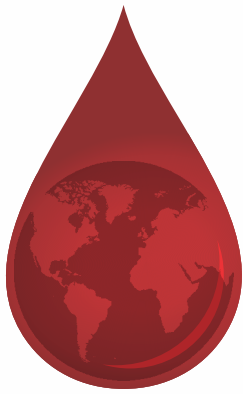

What else makes me Smile??

My Bruised Hands tell me that I'd held on something for too long, as I am a keeper makes me smile, My light heart tells me It is better to let go, as not everything is meant for me, makes me smile, My puffy eyes tell me I'd need sleep but I prefer interventions upon myself, makes me smile, My Cold Ears have heard My loved ones say, "You've got the prettiest Smile, Keep Smiling always," makes me smile even wider...

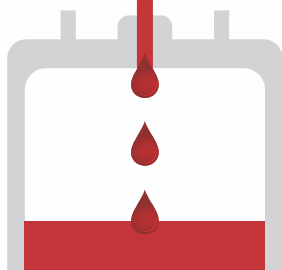

(Life is going to be tough, but you have to find your own bunch
of happiness and take time to make your soul Happy)

WORLD BLOOD DONOR DAY

Every year, on 14 June, countries around the world celebrate World Blood Donor Day (WBDD). The event serves to raise awareness of the need for safe blood and blood products and to thank blood donors for their life saving gifts of blood.

Blood is an important resource, both for planned treatments and urgent interventions. It can help patients suffering from life threatening conditions live longer and with a higher quality of life, and supports complex medical and surgical procedures. Blood is also vital for treating the wounded during emergencies of all kinds (natural disasters, accidents, armed conflicts, etc.) and has an essential, life saving role in maternal and perinatal care.
