Triton Maritime Carries Out Emergency Towage of Chemical Tanker

MT Colossus was steaming off coast Veraval and going towards Pipavav Port for discharge of cargo. when suddenly both engines stopped, Vessel dropped anchor off coast Veraval. Since it was monsoon there were strong currents and heavy swells due to which anchor of the tanker was dragging and was not able to maintain its position. When a tanker is drifting close to shore, with risk of grounding or collision is one of the main concerns of oil spill and damage to the environment. Emergency assistance was required for the tanker to tow to safe waters. A specialised and experienced crew team was mobilised on our Tug Triton Energy and tug was sent to tow tanker which was moving towards coastline. A safe connection with bollards and fairleads on board a disabled tanker with high waves was completed with all safety checks. Tanker was than towed to safe waters at Pipavav Anchorage. Our operation team and vessel crew did fantastic job in adverse weather conditions.

- Ceekay Dubai Team have executed a break bulk shipment of used Air craft to GUANGAO port, China, from Sharjah.

- **Our Scope of work :**

- Dismantling of wings ,tail (stabilizers) ,landing gears from Aircraft body and design secure packing for each dismantled Pieces .

- **Air craft body or Fuselage :**

Length : 32 meters

Diameter : 3.8

Weight : 32 Ton.

- **Wings : 2 pcs**

16 x 4 x 1 - meters x 2 pieces.

Weight : 4000 kg each.

Another feather in Orchid's cap

This month Kolkata has successfully executed a very complex 1994 cubic of BB parcel destined for St Petersburg, For one of their key clients "TIL India" with an aplomb! Here, the scope of this daring shipment was packaging, transportation of the entire Asphalt Plant, custom clearance and ship broking.

Given the over-sized specs & nature of the cargo it's potential handling though seemed very daunting initially, the Kolkata team put forward exemplary effort in the complete coordination with all the relevant stakeholders (including the shipper/vessel owner/in-house Chartering div) to pull this almost spectacular feat! Meticulous planning with clock like precision , round the clock monitoring,excellent workmanship and ample confidence, eventually resulted in the cargo getting loaded rather smoothly onto M.V. "HOLANDIA", much to everyone's satisfaction.

Good job done Kolkatayearning for more in the coming days !!

Kaizen by BLG Parekh

In June month we achieved mile stone in part level packing production & Dispatch, same growth path we maintained in July month. In July BLGP WLC packed 15840 vehicle with running two shifts only & without any overtime. Whatever issues we had faced in June month for achieving 20136 vehicle packing same we had noted & on that burning issues started counter actions from day one of July. As per listed, on hot issues team was started taking actions on these issues like -Plant Layout/Storage system & packing process. With TPM way we revised the plant layout due to which continues flow of work maintained, labour efficiency improved, optimization of work place increased. In Storage-we made fabricated shelf's for small size packing material like partitions/boxes/separators due to which mixup/ Rejection/ searching time reduced & utilization of available time increased. Also special trolleys developed (stacking+movable) for vertical space utilization. in process- we identified Non Value Activity in packing process & same is eliminated one by one through ECRS approach (Elimination/ Combination/ Rearranging/Simplification) due to which operational efficiency increased.

In the month of June team packed 20136 vehicles with running three shift/day & used 3380 man-days in month. but in July as per customer plan 15840 vehicles packed with running two shifts only & used 1952 man-days only. Due to extra efforts & planned actions Compared to June, in July month part level packing productivity increased by 30.36%

Grand Opening of New Facility at Palwal

Whether it's an inauguration of a business or an expansion of an existing business, toast to the changes and let your business associates know that you are happy for them. A new business opening is indeed a special event and a joyful occasion for colleagues and acquaintances alike. Our encouragement and support will undoubtedly inspire and motivate them to do their best in their new endeavor. On July 11th, 2019 Mr. Avinash Gupta (HEAD - Tata Genuine Parts & Aggregates) and Mr. Naresh Parekh (DIRECTOR-The Parekh Group) inaugurated the new warehouse at Palwal. The newly built warehouse has a total area of 1, 35,000 Sq.Ft provided by a high-bay warehouse with a modern HD Racking System. Handling ramps, a logistic office as well as pallet storage areas complete the new building. A booklet was also released during the ceremony which showcases the various KAIZEN activities implemented at the Palwal Warehouse.

Award given to **Parekh Group** for successful continuation of business from 1st generation to 4th generation in **MALA 2019**

Safety comes first

A calamity never announces its arrival. We have to be always prepared to face it, manage it and control it. This preparedness is a must for any organization, especially housed in any multistory building. While calamities can be classified in various types, the result is certain-loss of life and property. When the cause can be manmade, accidental or even act of God, the result is always due to mismanagement of the calamity. This fact highlights the importance of training, mock drill and constant evolution of our response capability.

It is the responsibility of every individual working in an organization to be in readiness to respond to the need of the hour. To achieve this readiness, training and practice is necessary.

Hence we have conducted an evacuation drill dated -9th Aug-2019

Employee Corner

One of our employee is associated with " Khalsa Environment project " had conducted Environment awareness program in Delhi Branch on 12th August 2019.

Where he explained How each one of us can contribute in protecting Earth by controlling Air/water pollution and conserving Water. these are of utmost importance for sustaining life of human beings and co-existing species.

Topics covered during this session are Water conservation, waste segregation and air pollution.

Enthusiastic participants immediately adopted certain practices in their individual capacities for making this world better than today.

Blood Donation Camps

Every year, on 14 June, countries around the world celebrate World Blood Donor Day. The event serves to raise awareness of the need for safe blood and blood products and to thank blood donors for their life saving gifts of blood.

We have also arranged Blood donation camp in Parekh Group at different locations like Mumbai, Chennai, Kolkata and Mundra etc.

We received very overwhelmed response from the employees and we are very glad to share that total number of blood bags collected during the blood donation camp was 282

Independence Day Celebration Across India

The Independence Day of India, which is celebrated religiously throughout the Country on the 15th of August every year, holds tremendous ground in the list of national days, since it reminds every Indian about the dawn of a new beginning, the beginning of an era of deliverance from the clutches of British colonialism of more than 200 years. It was on 15th August 1947 that India was declared independent from British colonialism, and the reins of control were handed over to the leaders of the Country. India's gaining of independence was a tryst with destiny, as the struggle for freedom was a long and tiresome one, witnessing the sacrifices of many freedom fighters, who laid down their lives on the line.

Helping Hands- Flood Relief Activity

Recent heavy rainfall has caused massive floods and landslides in the states of Maharashtra, Karnataka and Kerala.

The flood destroyed the residences of some of the villagers also ruined agricultural activities and cattle's were flown away in the flood. People got homeless and lost their livelihood and jobs.

Our employees were interested and management had supported the donation drive. Most of the employees donated their One day salary for this noble cause and management contributed equivalent amount collected by all the employees in the group. We knew that We cannot bring everything back what these precious lives have lost but for sure we could stand with them in such difficult situation.

With the help of "Rashtra Seva Dal" Ichalkaranji Branch we could reach to the affected families and students whom the basic needs were provided like Grocery Kits, Clothes, Utensils, Blankets, School Kits, Uniforms etc.

Celebrations at Parekh ←

Tree Plantation Drive ←

**One more tree plantation drive
is conducted across India**

If you cut a tree, you kill a life.
If you save a tree, you save a life.
If you plant a tree, you plant a life.

Save the trees, save the Earth.
We are the guardians of nature's birth.
Think Green & Live green.
